

Freedom Area School District Board Meeting Minutes
February 8, 2017 tour of Ashwaubenon High School and Bay Port High School

Freedom Facilities Advisory Committee Continues School Tours

On the evening of February 8, 2017, several members of the Freedom Facilities Advisory Committee (FFAC), Freedom Area School District Board of Education, and district administration visited Ashwaubenon High School and Bayport High School as a way of gathering insight and information regarding the unique aspects of the different facilities.

The visits are part of the process of exploring a variety of facilities options. The Board of Education has been seeking input from the FFAC for the past several months, and recently hired Somerville Architects and Engineers to continue work on creating initial facility drawings based upon feedback from the FFAC and the community "Visioning" groups.
