January 3, 2017 tour of Clintonville Schools
and
January 4, 2017 tour of Wrightstown and Fox Valley Lutheran Schools

Board of Education and Facilities Committee Tour Other Schools

On the evening of January 4, 2017, several members of the Freedom Facilities Advisory Committee (FFAC), Freedom Area School District Board of Education, and district administration visited Wrightstown High School and Fox Valley Lutheran High School as a way of gathering insight and information regarding different aspects of the different facilities. A small group of committee members also visited Clintonville High School on January 3, 2017.

About thirty committee members traveled to tour the two facilities. These visits are just the initial visits as the logistics of more school site visits are being planned for the future.

The visits are part of the process of exploring facilities options. The Board of Education has been seeking input from the Freedom Facilities Advisory Committee for the past several months, and they have hired Somerville Architects and Engineers to complete a needs assessment which will end with preliminary high-level facility drawings along with preliminary budget considerations. Somerville will present their information at a special Board meeting that will take place on the evening of January 25, 2017, in the FHS Lecture Hall.

Committee members tour FVL Technical Education Area

FFAC visit Wrightstown High School STEM Area
